

## Vacuum 33-50 Oil

Tecla Vacuum 33-50-oil

The Tecla Vacuum 33-50-oil vacuum packaging machine is a very effective work tool.

It is a very versatile packaging machine suitable for professional users that can be used to vacuum-pack food. It is extremely reliable and is able to easily withstand heavy workloads. Thanks to the very high construction quality and a powerful lubricated pump, the need for maintenance is reduced to a minimum.

The machine is entirely Made in Italy to guarantee further quality. Although it is a technically cutting-edge professional vacuum machine, Tecla Vacuum 33-50 oil maintains the characteristics of ease of use that distinguish Tecla products.

Vacuum 33-50 oil is equipped with a double sealing bar with electromechanical movement, at the time of sealing the upper sealing bar is pushed downwards by two electromagnets, sealing the bag, a feature which, in association with a length of the sealing bar of 500 mm and a powerful pump allows you to vacuum pack virtually any type of food extremely quickly and easily.

The bodywork is in satin stainless steel, therefore the machine is resistant and easy to clean.

Vacuum 33-50 oil is compatible with any type of vacuum bag: it works with smooth and embossed bags.

Technical specifications	
<b>Model</b>	Vacuum 33-50 oil
<b>Voltage</b>	230 Volt - 50 Hz
<b>Power</b>	550 W
<b>Sealing bar</b>	Double, 500 mm
<b>Vacuum pump</b>	Lubricated, 4 m <sup>3</sup> /h
<b>Cycle Control</b>	Electronic card
<b>Material</b>	Brushed stainless steel
<b>Weight</b>	25 Kg
<b>Sizes</b>	700 x 320 x 230 mm
<b>Regulation</b>	CE
